KEYLESS UNIT

KEYLESS ENTRY HARNESS

INSTALLATION

Customer Information: The information in this installation instruction is intended for use only by skilled technicians who have the proper tools, equipment, and training to correctly and safely add equipment to your vehicle. These procedures should not be attempted by "do-it-yourselfers."

1. Make sure you have the anti-theft code for the radio, then write down the frequencies for the preset buttons.

2. Disconnect the negative cable from the battery.

3. Remove the driver's dashboard under cover:

   • Turn the knob clockwise.

   • Release the clip and one pin.

9. Secure the keyless entry harness 7-pin connector with cover to the vehicle harness using one wire tie.

10. Route the keyless entry harness 5-pin connector wrapped with urethane foam to the back of the fuse box.

NOTE: If the fuse box 5-pin connector is already used by fog light switch harness:

Locate the 5-pin connector black-taped to the fog light switch harness, and remove the dummy connector from the 5-pin connector. Plug the keyless entry harness 5-pin connector into the fog light switch harness 5-pin connector (black-taped).

VEHICLE FUSE LABEL (Thoroughly clean with isopropyl alcohol.)
ADHESIVE BACKING
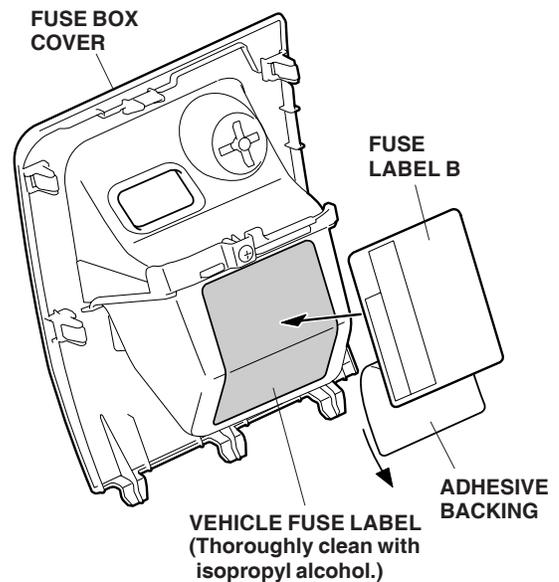

18. Remove the adhesive backing from the fuse label B, and then attach the fuse label B over the existing vehicle fuse label as shown.

19. Check that all wire harnesses and cables are routed properly and all connectors are plugged in.

20. Reinstall all removed parts.

21. Reconnect the negative cable to the battery.

22. Enter the customer's radio anti-theft code, if applicable, and reset the radio station presets.

23. Set the clock.

24. Check operation of the keyless entry according to the User's Information.

NOTE: When the battery is disconnected, the driver's window AUTO function is disabled.

- Start the engine. Push down on the driver's window switch until the window is fully open.

- Pull up on the driver's window switch to close the window completely, then hold the switch for 2 seconds or more.

- Lower and raise the driver's window to check operation of the driver's window AUTO function.
