Put this instruction in the glove box with the vehicle owner's manual.

PARTS LIST

Cargo cover

Accessory User's Information Manual

Illustration of the Cargo Cover in the Vehicle

INSTALLATION

1. Open the hatch. Locate the recesses in the left and right rear side trim panels.

2. Insert the left end of the cargo cover into the recess in the left rear side trim panel. Push the end further into the recess, hold it in that position, then insert the right end into the recess in the right side trim panel.

3. Attach the right and left tabs to the grooves in the rear side trim panels.

USE AND CARE

The cargo cover is spring-loaded and can snap in when released from the hooks. When you retract the cargo cover to the storage position, unhook the cover and retract it slowly.

CLEANING THE CARGO COVER

Use a sponge or cloth and a solution of mild liquid dishwashing soap and water to clean the cargo cover, then wipe it dry with a clean cloth or sponge.
