INSTALLATION

Customer Information: The information in this installation instruction is intended for use only by skilled technicians who have the proper tools, equipment, and training to correctly and safely add equipment to your vehicle. These procedures should not be attempted by “do-it-yourselfers.”

NOTE:

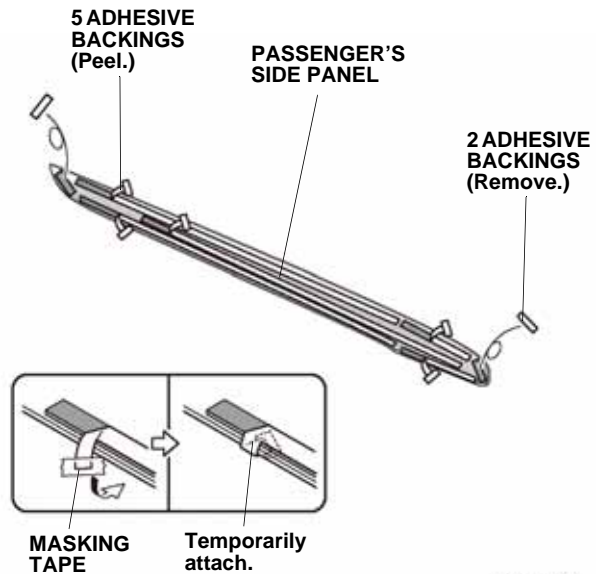

- Be careful not to damage the paint finish.
- This kit should be installed only if the ambient air temperature is 15°C (60°F) or above.

Installing the Interior Panels

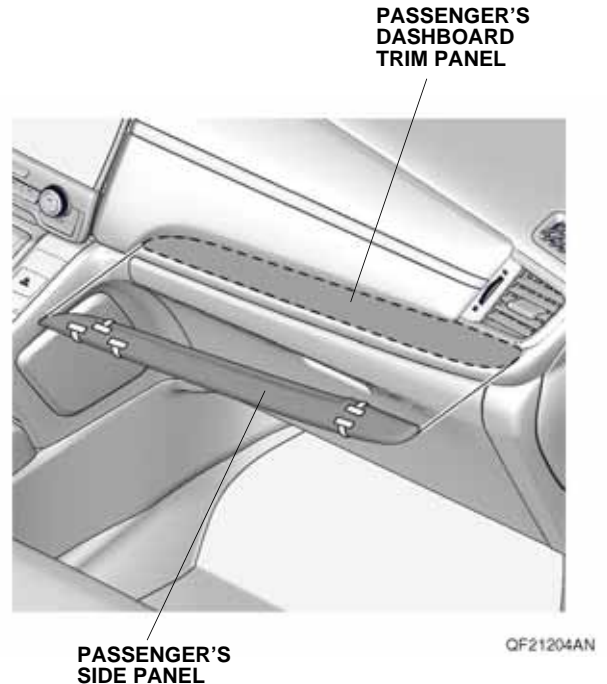

1. Using one alcohol swab, thoroughly clean the passenger's dashboard trim panel where the passenger's side panel will attach.

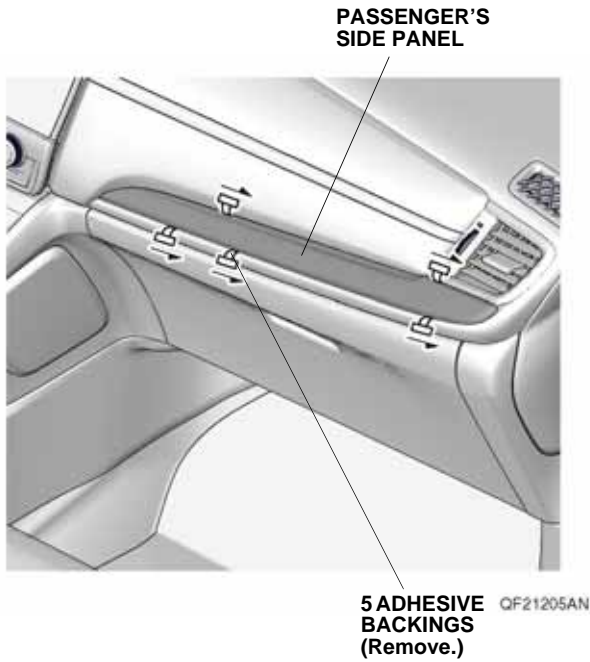

2. Peel back the adhesive backings, and tape them to the front surface of the passenger's side panel with masking tape. Remove the remaining adhesive backings.

3. Attach the passenger's side panel to the passenger's dashboard trim panel as shown.

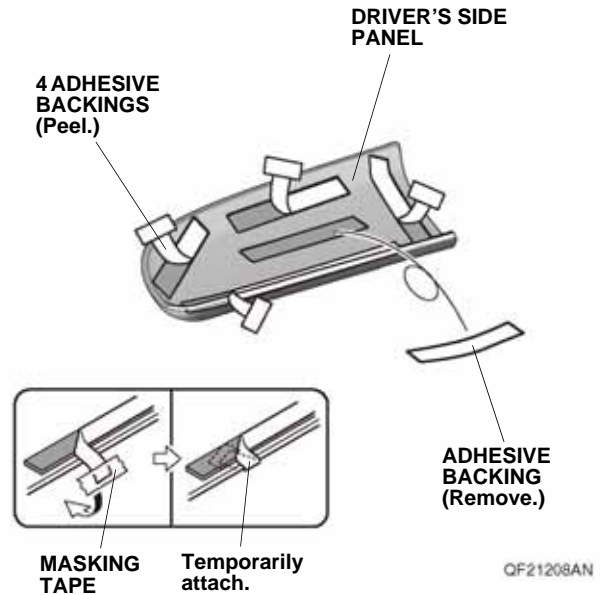

- While applying light pressure against the passenger's side panel, carefully remove the taped adhesive backings.

- Using the palm of your hand, firmly press the passenger's side panel against the passenger's dashboard trim panel.
- Using one alcohol swab, thoroughly clean the driver's dashboard panel where the driver's side panel will attach.

- Peel back the adhesive backings, and tape them to the front surface of the driver's side panel with masking tape. Remove the remaining adhesive backing.

- Attach the driver's side panel to the driver's dashboard panel as shown.

- While applying light pressure against the driver's side panel, carefully remove the taped adhesive backings.

- Using the palm of your hand, firmly press the driver's side panel against the driver's dashboard panel.
- Using one alcohol swab, thoroughly clean the left front door where the left front door panel will attach.

- Peel back the adhesive backings, and tape them to the front surface of the left front door panel with masking tape. Remove the remaining adhesive backings.

- Line up and attach the left front door panel to the left front door as shown.

14. While applying light pressure against the left front door panel, carefully remove the taped adhesive backings.

15. Using the palm of your hand, firmly press the left front door panel against the left front door.
16. Using one alcohol swab, thoroughly clean the left rear door where the left rear door panel will attach.

17. Peel back the adhesive backings, and tape them to the front surface of the left rear door panel with masking tape. Remove the remaining adhesive backings.

18. Line up and attach the left rear door panel to the left rear door as shown.

19. While applying light pressure against the left rear door panel, carefully remove the taped adhesive backings.

20. Using the palm of your hand, firmly press the left rear door panel against the left rear door.
21. Repeat steps 11 through 20 on the right side of the vehicle.
