INSTALLATION

Customer Information: The information in this installation instruction is intended for use only by skilled technicians who have the proper tools, equipment, and training to correctly and safely add equipment to your vehicle. These procedures should not be attempted by "do-it-yourselfers."

NOTE: Before installing new brake disc rotors, be sure to check the brake pads. If the brake pads are worn unevenly or excessively, check and service the brake calipers.

Installing the Brake Disc Rotors

1. Refer to the online service information for how to inspect and replace brake disc rotors.
NOTICE: These brake rotors must be installed with the proper rotations as shown below. Failure to install them properly can prevent them from working properly.

2. After installing the new brake disc rotors, press down on the brake pedal several times to make sure there is free play in the pedal.
