INSTALLATION

Customer Information: The information in this installation instruction is intended for use only by skilled technicians who have the proper tools, equipment, and training to correctly and safely add equipment to your vehicle. These procedures should not be attempted by "do-it-yourselfers."

NOTE: Do not damage the body paint finish.

Installing the Bed Extender

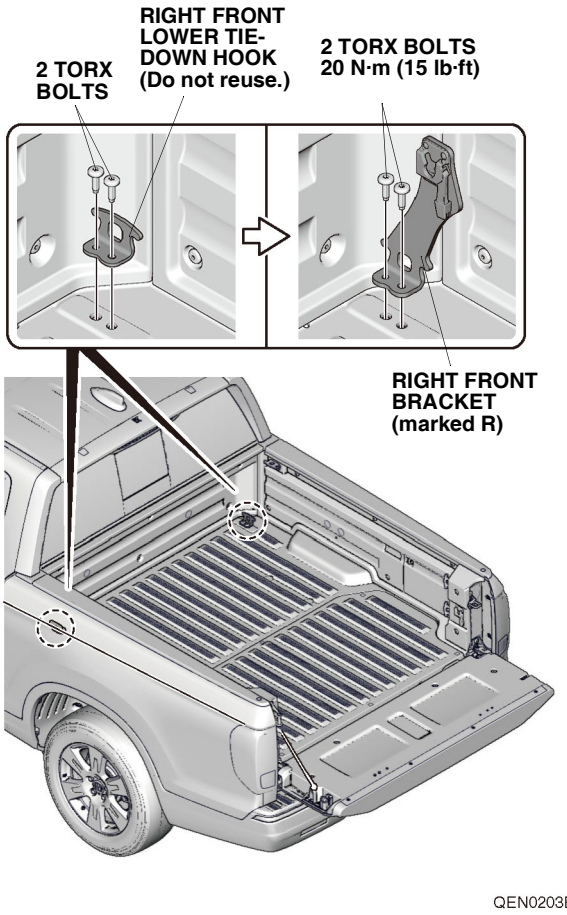

1. Open the tailgate.

2. Using an awl, pierce through the seals in three holes on the right side bed lining.
3. Install the right rear latch to the right side bed lining with three hex bolts. Repeat steps 2 and 3 on the other side.

7. Install the strap to the middle tube of the right tube. Slide three center tubes into the right tube using the coated area as a guide for depth of insertion.

8. Insert the two pivots on the bed extender into the rear latches. Push down on the bed extender until the parts are locked.

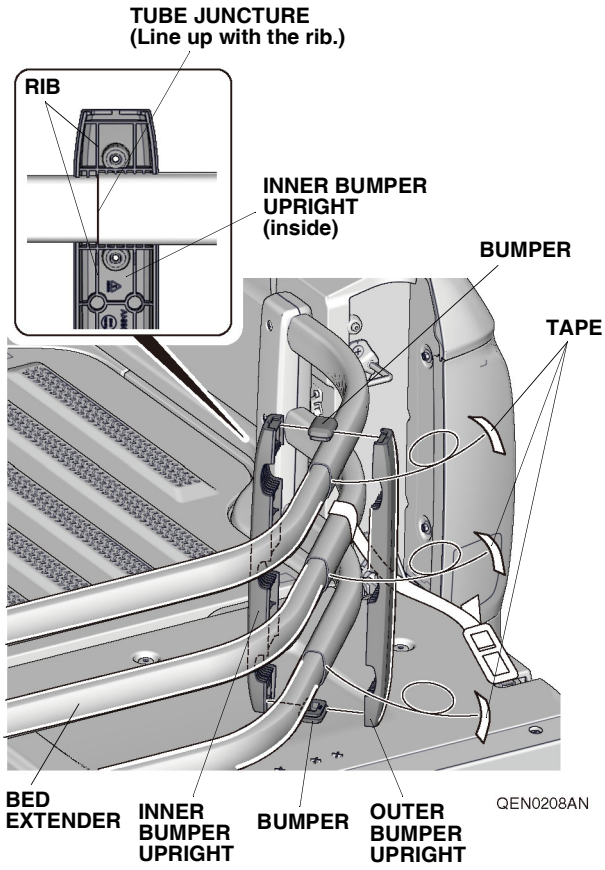

9. Carefully pull down the bed extender onto the tailgate.

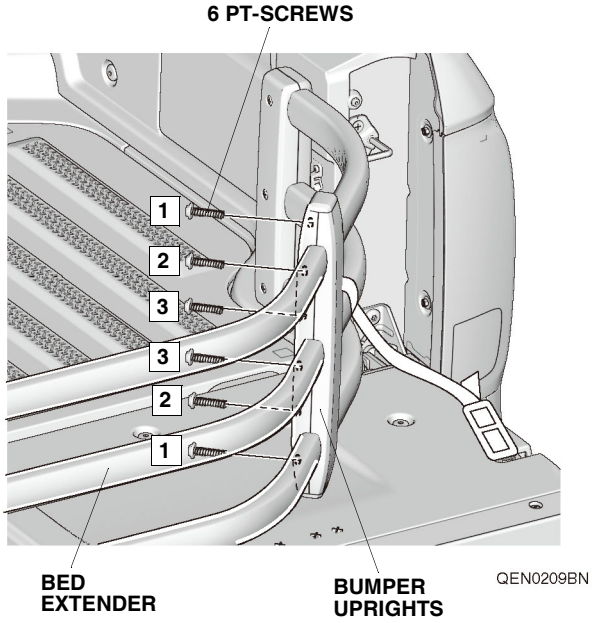

10. Adjust the bed extender width installed in the vehicle and secure them with tape. Make sure it can pivot and be uninstalled without much effort.

11. Remove the tape. Line up the outer bumper upright and inner bumper upright around the tube junctures and place two bumpers into the ends of the bumper uprights.
NOTE: Make sure to install the bumper uprights in the correct positions and orientations.

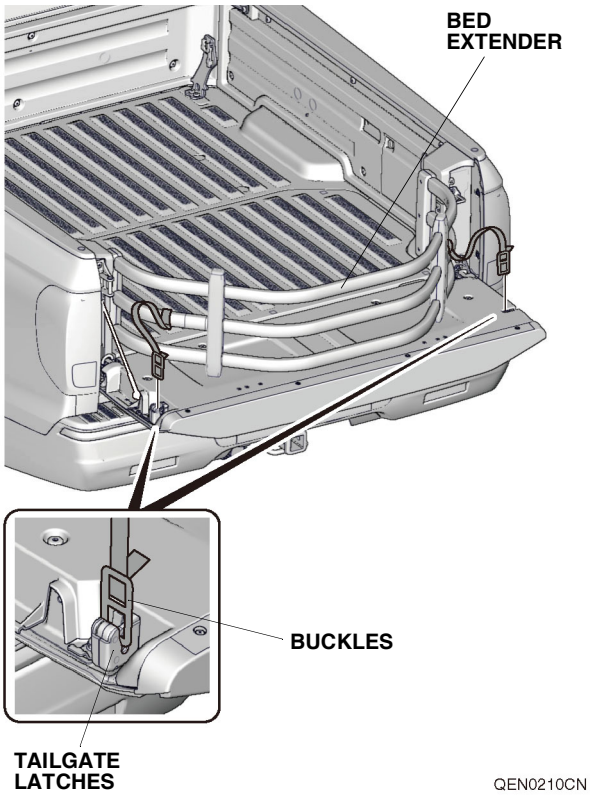

12. Secure the bumper uprights to the bed extender with six PT-screws in the order shown. Tighten the PT-screws evenly.

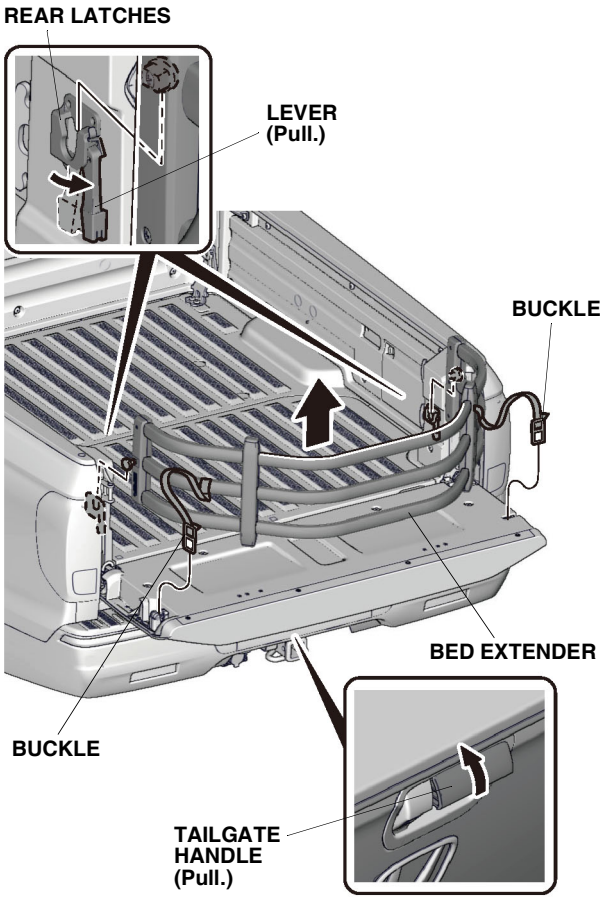

13. Repeat steps 11 and 12 on the other side.

14. Secure two buckles on the bed extender to the tailgate latches to confirm fitting.
